

# SMART FIX

Smart Fix is a strong and well-proven system based on the 60x40 posts. The pre-galvanized Smart Fix bracket has good corrosion protection and is easily mounted on the post. The fixings are easily moved up and down to adjust for tunnels and uneven floors.

The Smart Fix bolts are attached to the panels and remain captive even when the system is dismantled, fulfilling the requirements of the Machinery Directive. The system is tested to withstand an impact of 2100 joules.

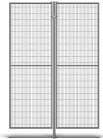

The Smart Fix system can easily be combined with other Troax systems, like Rapid Fix and Safe Fix.

## FACTS

ART. NO	COMPONENTS
35700330	Kit protection bracket Smf
36700074	Kit Clamp SmF
36700096	Kit corner bracket SmF
36700274	SmF Bulkpack for 20 posts
36904000	Kit sign Type Approved SmF
36908000	Kit SmF T-crossing
